PROFESSIONAL SUMMARY

Results-driven Computer Science and Engineering undergraduate at KL University Hyderabad with strong expertise in full-stack web development, artificial intelligence, and software engineering. Proficient in C++, Java, Python, and React.js with hands-on experience building scalable web applications, AI-powered solutions, and enterprise systems. Proven track record of delivering efficient, user-centric products with measurable impact.

EDUCATION

KL University Hyderabad

Jul 2024 — May 2028 (Expected)

Bachelor of Technology in Computer Science and Engineering

Relevant Coursework: Data Structures, Algorithms, Database Management Systems, Web Development, Artificial Intelligence, Machine Learning, Software Engineering.

Jawahar Vidya Mandir Shyamali

Apr 2014 — May 2024

Senior Secondary (Class XII) - Science

Key subjects: Physics, Chemistry, Mathematics.

TECHNICAL SKILLS

Languages: C, C++, Java, Python

Web Technologies: HTML5, CSS3, React.js, Node.js, Tailwind CSS

Databases: PostgreSQL, SQL

AI/ML: RAG (Retrieval-Augmented Generation)

Other Technologies: Linux

Design Tools: Canva

EXPERIENCE

ERP Developer Intern

Aug 2025 — Nov 2025

KL University, Hyderabad

- Contributed to the development of the university ERP portal serving over 20,000 students and faculty members.
- Designed and implemented modules for attendance tracking, grade management, and student information systems.
- Optimized database queries in PostgreSQL, improving data processing efficiency by 30%.
- Ensured 99% data integrity and system reliability through rigorous testing and validation logic.

PROJECTS

ROOTSnROUTES - AI Tourism Platform

Full Stack Project

- Developed an AI-powered travel planning platform achieving 94% trip planning accuracy using tailored algorithms.
- Implemented secure blockchain-based payments via Web3.js and immersive AR/VR destination previews using A-Frame.
- Built a responsive Progressive Web App (PWA) supporting 7 languages with real-time features using Supabase.

Fixora - Automated Response System

AI & Web Development

- Engineered an intelligent email assistant using Retrieval-Augmented Generation (RAG) to draft context-aware replies.
- Reduced manual email processing time by automating responses based on custom knowledge bases.

MentiSphere - Mentorship Platform

Award Winning Project

- Created a platform connecting students with industry experts featuring video scheduling and resource sharing.
- Secured 2nd Place in the OpenSourceX Hackathon sponsored by Red Hat.

ACHIEVEMENTS

- **2nd Place**, OpenSourceX Hackathon (Sept 2025) - Team MentiSphere. Hosted at KL University.

CERTIFICATIONS

Building LLM using Prompt Engineering

NVIDIA | 2026

Completed comprehensive training on Large Language Model (LLM) development, prompt engineering techniques, and AI application development.
